## Profile

Highly skilled professional holding MSc in Data Analytics from Aston University, with more than 2 years of experience in the field of Information Technology. Eager to leverage my skills in data analysis to contribute effectively to a dynamic team. Seeking a position that allows for professional growth and the application of knowledge in real-world scenarios.

## Experience

### **FRONTEND DEVELOPER | ARABSIGN COMPANY, JEDDAH KSA | APRIL 2021-SEPTEMBER 2022**

- Collaborated with design and development teams to translate stakeholder requirements into user-friendly web applications.
- Develop and maintain high-quality front-end code using ReactJS, Next, and other relevant technologies.
- Drove continuous improvement in front-end development processes and workflows.
- Worked closely with stake holders to understand their visions and objectives, providing technical expertise and advice to achieve them.

### **SOFTWARE ENGINEER | FULLMILES TECHNOLOGIES, KERALA INDIA | DECEMBER 2018-DECEMBER 2019**

- Expertise in web development using Spring MVC, JavaScript, and CSS. Created efficient and user-friendly web applications utilizing these technologies.
- Proficient in programming with Java and worked with various technologies including Spring MVC, Maven, JDBC, and RESTful web services. Developed robust and scalable solutions using these technologies.
- Contributed to the creation of an Admin page for the Fullmiles carpool application. Implemented the functionality using Spring MVC, HTML, CSS, React, and Ajax. Ensured a seamless user experience and efficient data management.
- Successfully integrated the application with REST and other APIs, including Google Maps, login, and payment processors. Developed reliable and secure connections to external services, enhancing functionality and user convenience.

## Education

### **MSc DATA ANALYTICS | ASTON UNIVERSITY, BIRMINGHAM UK | SEPTEMBER 2022-PRESENT**

- Developed expertise in creating mathematical and spreadsheet models to facilitate rational decision-making in business scenarios.
- Acquired data visualization and descriptive statistics skills for effective data analysis and reporting to support organizational decision-making.
- Learned to use mathematical and econometric methods to assess efficiency and productivity, with practical experience in benchmarking using specialized software.

- Proficient in Python and R for data analysis in scientific computing. Skilled in libraries such as NumPy, Pandas, and Matplotlib for tasks like numerical analysis and 2D data visualization.

**B. TECH COMPUTER SCIENCE AND ENGINEERING | COCHIN UNIVERSITY OF SCIENCE AND TECHNOLOGY, KERALA INDIA | AUGUST 2014-APRIL 2018**

## **Skills**

- Advanced Java and J2EE
- SQL (SQL Server, MySQL)
- Spring MVC
